Portfolio: alibinauanov.streamlit.app/

Education

New York University Shanghai   New York, NY
Bachelor of Science in Computer Science   *Expected May 2025*

Experience

METANA (metana.news**)**   Chicago, IL(Remote)
Full-Stack Development Intern   *July 2023 - August 2023*
- Optimized data processing and machine learning tasks with Python pipelines using PyTorch, achieving a 30% reduction in processing time and enhancing model training efficiency
- Led resolution of critical server crashes and database errors, boosting system stability and increasing API reliability by 25%
- Built the front-end components using JavaScript and Bubble for web development

Shoptaki (shoptaki.com**)**   New York City, NY(Remote)
Front-end Development & UI UX Design Intern   *September 2022 - July 2023*
- Designed the user interface of the Dashboard, Settings, Profile, SmartID, and Analytics pages as an MVP
- Developed the Front-end part with React.JS

Grantly.Academy   Almaty, Kazakhstan
Business Development Intern   *February 2022 - April 2022*
- Spearheaded server management for amoCRM (Enterprise-focused web-hosted CRM for lead and sales management, from initial contact to completed sales)
- Resolved critical server crash issues and database errors, resulting in enhanced sales office efficiency of 20%

Projects

Movix | React.js, Redux, SCSS, API   *github.com/alibinauanov/movie-app*
- Constructed Movix, a sophisticated movie database, employing cutting-edge frontend technologies
- Designed React application, showcasing JSX components with efficient props and state management.
- Leveraged advanced JavaScript logic to create interactive features and elevate visual aesthetics, creating an engaging user interface.

Article Summarizer | React.js, Vite.js, JS, API   *github.com/alibinauanov/article-summarizer-ai*
- Developed an Article Summarizer application using ReactJS and Vite as front-end technologies.
- Integrated RapidAPI for efficient access to news and article content.

Weather App | Vue.js, API, JS, Yarn   *github.com/alibinauanov/vue-weather*
- Engineered a user-friendly weather application using Vue.js for real-time weather information retrieval worldwide.
- Implemented a structured architecture with Vue components, enhancing code readability and reusability.
- Integrated the OpenWeatherMap API to fetch and display accurate weather data based on user input.

Technical Skills, Other Skills

Programming Languages: Python, Java, JavaScript/Typescript, C, HTML/CSS, MongoDB, SQL
Frameworks: React.js, Vue.js, Next.js, Vite.js, Node.js, p5.js, Django, Express.js, MySQL, Firebase, Redux, Pandas, NumPy, Babel, Webpack, NuxtJS, Yarn
Developer Tools: Git, Figma, Linux, Docker, AWS, Google Cloud Platforms, VS Code, Eclipse
